EXPERIENCE

Badho (badho.in), Gurgaon

October 2023 - Present

Full Stack Developer (React Native, NodeJS, GraphQL, Hasura, Git)

- Implemented new features in React Native according to business requirements, seamlessly integrating with the backend using NodeJS/GraphQL
- Implemented user activity tracking in the frontend, transmitting logs to the backend for analysis.
- Integrate new GraphQL queries or modify existing ones to better suit our evolving business needs.
- Optimized and revamped existing UI components for modularity and consistency across the app.

Bookingjini (bookingjini.com), Bhubaneswar

February 2023 - September 2023

Frontend Developer (React JS, NextJS, Material UI, Tailwind, Git, Mantine UI, SCSS)

- Made a web app to scan QR codes to view restaurant menus and order items for dine-in.
- Created a sub-app to register customers for walk-ins to a hotel and update hotel inventory.
- Revamped the old booking engine, created custom components, and developed a modular and maintainable booking engine.
- Maintaining open source project "Bookingjini Icons Pack" for pull requests and issues.

YellMon Labs (yellmonlabs.com), Bhubaneswar

May 2022 - July 2022

UI Developer

- Translated UI/UX design wireframes from Figma into code for producing the visual elements of the application using HTML, CSS, React and Tailwind

SKILLS

Languages: TypeScript, JavaScript, CSS, HTML5, GraphQL

Tools: VS Code, Figma, Canva, Firebase, Hasura

Libraries/Frameworks: React Native, NextJS, ReactJS, Mantine, Chakra UI, Ant Design, TailwindCSS, Bootstrap

EDUCATION

Odisha University of Technology and Research, Bhubaneswar

November 2021 - May 2023

Master of Computer Application

PROJECTS

Get That API

React, Axios, Git, GitHub

- Designed and developed a browser extension to test your API Endpoints using GET, POST, PUT, PATCH and DELETE methods.
- Users can also add authentication methods, and payload and can view the response.
- GitHub Link: github.com/AshutoshDash1999/get-that-api-browser-extension

Placement Notice Generator

React, TypeScript, Mantine, Vercel, Git, GitHub

- Developed a web app to create a template for notice for upcoming placement drives.
- The notice can be translated into the text of WhatsApp and Telegram.
- Github Link: github.com/AshutoshDash1999/placement-notice-generator

Live Bidding System

React, TypeScript, Chakra UI, Firebase, Vercel, Git, GitHub

- A website where sellers can put up stuff for sale and buyers can bid live on them as the auction happens.
- GitHub Link: github.com/AshutoshDash1999/live-bidding-system
